-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants' Request for Continuing Examination of December 20, 2005, in response to the Final Rejection mailed December 13, 2005, is acknowledged. It is acknowledged that Applicants have cancelled Claim 1 and added Claims 21 and 22. Claims 21 and 22 are pending.

In their response of June 13, 2005, Applicants elected Invention III, drawn to a method of changing the kinase activity of a PAS domain. None of the currently pending claims are directed to said invention.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 21, drawn to a method of changing the intramolecular binding of a PAS domain, classified in class 435, subclass 440.
- II. Claim 22, drawn to a method of changing the intermolecular binding of a PAS domain, classified in class 435, subclass 440.

It is noted that the Inventions I and II above are drawn to the same subject matter as Inventions II and I, respectively, of the Election/Restriction requirement mailed June 7, 2005.

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). Also, product and process inventions are distinct if any of the following can be shown: (1) that the process as claimed can be used to make another and materially different product, (2) that the product claimed can be used in a materially different process of using that product, or (3) that the product claimed can be made by another and materially different process (MPEP § 806.05(h)). Inventions I and II are independent because

Art Unit: 1656

the methods of Inventions I and II comprise different steps, utilize different products and/or produce different results.

Because the methods of Inventions I-VI comprise different steps, utilize different products, and/or produce different results, a search for one said invention would not encompass a search for the other invention and searching both inventions would be a burden on the Office.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art due to their recognized divergent subject matter, as shown by their different classification, restriction for examination purposes as indicated is proper.

To insure that each document is properly filed in the electronic file wrapper, it is requested that each of amendments to the specification, amendments to the claims, Applicants' remarks, requests for extension of time, and any other distinct papers be submitted on separate pages. It is also requested that Applicants identify support, within the original application, for any amendments to the claims.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sheridan L. Swope whose telephone number is 571-272-0943. The examiner can normally be reached on M-F; 9:30-7 EST.
